

Casi PIZZERIA

MENÙ

SINCE 2018
by Ermanno Ruggieri

OUR PHILOSOPHY

Health and Life in every bite

We choose superior quality

Our Stone-ground Type '2' Soft Wheat Flour. It is a LIVING product, naturally rich in fiber and a natural source of Omega-3, Omega-6, and Living Wheat Germ in its vital state.

The art of maturation

A complex process of over 300 biochemical micro-reactions. Thanks to wisely managed times and temperatures, we activate the enzymatic breakdown of proteins and starches, making the dough naturally "pre-digested".

The touch of sourdough

Fundamental to enrich the aromatic profile and enhance the bioavailability of nutrients.

Freshness and integrity

We use flour with a very short shelf life (3-4 months), guaranteeing a natural, fresh product free of stabilizers. The result? A light and highly digestible dough.

A pizza that nourishes the body and makes you feel good, with quality products.

Any additions of ingredients on the pizzas are possible, with a price variation.

Lactose-free Mozzarella

Supplement for each pizza

€ 3.50

CUSTOMIZE YOUR TASTE

Do you want to try something different?

We create **healthy alternative doughs** (such as Multigrain, Turmeric, Spirulina Algae, and other) to customize your pizza.

Our state-of-the-art process makes all our doughs ideal even for those who are mindful of the **glycemic index** or use **insulin pumps**.

Ask the staff for the daily variations.
